

# Quality, affordable international education

**P**ARENTS who are keen on enrolling their children in international schools today are spoilt for choice. However, before choosing the right school for their child, there are a number of factors that they should consider — price, syllabus, location as well as the facilities of the institution.

Nilai International School (NIS) opened its doors in 2010 and though it is among one of the more affordable international schools in Malaysia, it is not lacking in facilities. NIS provides all the teaching and learning amenities of a world-class international school, with its purpose-built campus on 6.01ha campus.

Located in the green suburb of Putra Nilai, it is wholly owned by Nilai Education Sdn Bhd, which also operates Nilai University. Both institutions sit side-by-side in a quiet cul-de-sac in this picturesque town.

Easily accessible by a number of highways, NIS is just 35 minutes from the Kuala Lumpur city centre and a mere 15 minutes from Seremban and the Kuala Lumpur International Airport. School bus services are available

from a number of designated spots, making the commute to NIS relatively stress free. The campus features round-the-clock security and it also has boarding facilities. Each classroom features a state-of-the-art smart board, which encourages an interactive learning experience. Its library is well-stocked with books for all age groups to encourage the reading habit among students.

Extra-curricular activities are highly encouraged with a range of sporting facilities available on campus, including outdoor courts, a football field and a swimming pool. The teaching staff members comprise both expatriates and Malaysians who have been hand-picked by the administrators to deliver the internationally recognised Cambridge International Examinations (CIE) syllabus. Intakes for NIS are in January, April and September for Primary 1 to Secondary (O-Levels). The Early Years Foundation stage for children aged between three and five is scheduled to start soon.
